## Successes continued...

11. Teamed with **Regeneratie Coöperatie** and other coalitions
12. Presented Climate Cleanup and **Regeneration** at Pymwimic impact investors conference
13. Action research by **Deltares** on weathering rate in seawater finished, with good results (concentration CO2 plummeted within hours in closed system)
14. Actual lab results for a for now secret (stealth) **enhanced weathering project** that made it to the second round of the Elon Musk X-Prize
15. Global **Olivine Conference** (enhanced weathering)
16. Started lab work on **seaweed carbon removal** with Climate Foundation (who won \$1 million in the Elon Musk X-prize)
17. Finished extensive research and strategy sprint for Afvalzorg named **Koolstofzorg**, which lead to a first Proof of Concept.
18. Producing an **engagement tool for farmers**, opening up the discussion about nature inclusive farming opportunities with the help of carbon credits being sold
19. Presenting the movie **2040** and accompanying learning programme
20. Made **Drawdown** book available to 3000 children in 110 classrooms at 22 schools

## ... and a few failures

- ✘ Crowdfunding Sargassum cleanup Bonaire
- ✘ Failed to raise funds to match capacity with programme for Climate Cleanup Foundation
- ✘ Organising a seaweed conference in Port of Amsterdam
- ✘ Olivine beach at Texel
- ✘ Connect more provinces to Onkra and other interventions
- ✘ Setting up a Climate Commons structure

## ... but mainly successes
